TREESTORE INTEREST SURVEY

Trees Charlotte

Want an easy and inexpensive way to make our community a healthier, cooler and even more beautiful place to live? Plant trees! The local non-profit TreesCharlotte is partnering with our neighborhood to offer trees to residents at a special event in either the fall or spring. All trees are in 7-gallon containers, measure 5-10 feet tall and are 3-4 years old. They range from large maturing to small flowering. TreesCharlotte will have experts on hand the day of the event to help you choose the right trees for your yard and teach all recipients how to properly plant the trees. We hope to get at least 50 trees into the neighborhood! Trees will $10 or less. Right now, we are simply gauging neighborhood interest. If you are interested in taking 1-3 trees home at this future event, please fill out this simple form. Doing so does NOT commit you to taking any trees, but it will help TreesCharlotte determine whether our neighborhood is a viable NeighborWoods candidate. A formal signup form will go out about three weeks before the actual event.
