

Robin Holly *Ilex 'Robin'*

Category: Evergreen

Growth Rate: Rapid

Adaptability: full sun to part shade

Shape: Conical

Size: 10-20' tall, 10-15' wide

Color: Showy red berries in late fall

Description: Typically grows as a large broadleaf evergreen shrub in a dense, conical form. Oblong, glossy, dark green leaves have spiny margins. Small greenish-white flowers appear in spring, but are generally inconspicuous. Abundant amounts of berry-like bright red fruits which ripen in fall. Can be used as a hedge.
