

Weeping Willow

Salix babylonica

Category: Deciduous

Growth Rate: Slow

Adaptability: Full sun to part shade, medium to wet well-drained soils

Shape: Stout trunk with graceful broad-rounded crown of branches that sweep downward to the ground

Size: 30-50' tall, 40-50' wide

Flower/Fall Color: Showy fragrant flowers, yellow fall leaves

Description: Thrives in moist soils making it an ideal specimen tree around a pond, stream or wet area. Branchlets are typically green and droop downward. Narrow, finely-toothed leaves are light green above and gray-green beneath and turn an undistinguished greenish-yellow in fall.
