

## Dura Heat River Birch

*Betula nigra 'Dura Heat'*

**Category:** Deciduous

**Growth Rate:** Vigorous, fast growing

**Adaptability:** Full sun to partial shade, tolerates moist and wet soils

**Shape:** Multi-trunked with an irregularly shaped crown, pyramidal

**Size:** 30-40' tall, 25-35' wide

**Flower/Fall Color:** Brownish-green flowers, yellow fall leaf

**Description:** Native. Dura Heat is summer heat tolerant, has better insect and disease resistance and superior foliage to the species. Exfoliating salmon to cinnamon bark reveals creamy white inner bark.
