

Cherokee Princess Dogwood

Cornus florida 'Cherokee Princess'

Category: Deciduous

Growth Rate: Average

Adaptability: Prefers partial shade, full sun requires more water and care

Shape: Low-branching, broadly-pyramidal but somewhat flat-topped habit

Size: 15-30' tall, 15-30' wide

Flower Color: Large white blooms

Description: Native tree. Oval, dark green leaves turn shades of red in fall. Bright red fruits are loved by birds. Prefers moist, organically rich soil in part shade. Benefits from mulch to help keep roots cool and moist in summer.
