

Peggy Clarke Apricot

Prunus mume 'Peggy Clarke'

Category: Deciduous

Growth Rate: Average

Adaptability: Full sun to partial shade

Shape: Upright, rounded and vase shaped

Size: 15-20' tall, 15-20' wide

Flowers: Fragrant, rose pink double blooms

Wildlife Value: Attracts birds, provides food

Description: Peggy Clarke' features rose-pink double flowers with red calyxes and very long stamens. Best flowering is in full sun. Foliage appreciates some part afternoon shade in the hot summers of the deep South. Avoid heavy clays and poorly drained wet soils.
