

Yoshino Cherry

Prunus yedoensis 'Yoshino'

Category: Deciduous

Hardiness: Zones 5 to 8

Growth Rate: Average to fast

Adaptability: Full sun

Shape: Rounded and vase shaped

Size: 15-25' tall, 15-25' wide

Flower Color: Showy white to pink blossoms with a light almond-like fragrance

Description: The Yoshino cherry tree is widely considered one of the most beautiful flowering ornamental trees. Flowers are followed by small black cherries (1/2" diameter) which are bitter to humans but loved by birds. It is adaptable to a number of different soil conditions.
