

# Red Chokecherry

*Aronia arbutifolia*

**Category:** Deciduous

**Growth Rate:** Slow

**Adaptability:** Partial to full sun

**Shape:** Vase-shaped, upright

**Size:** 6-12' tall, 3-6' wide

**Flower/Fruit:** White/light pink flowers give way to tart berries

**Wildlife Value:** Attracts pollinators, provides fruit for wildlife

**Description:** Small native, multi-stemmed, deciduous tree.

Clusters of white to light pink flowers appear in spring with bright red pear-shaped berries appearing in late fall, early winter. Fruit can be used to make jams. Best used in mass planting as it tends to become leggy with age.
