

American Cyrilla or Swamp Titi

Cyrilla racemiflora

Category: Deciduous to semi-evergreen

Growth Rate: Moderate

Adaptability: Full sun to partial shade; moist to wet well-drained sandy loam high in organic matter

Shape: Shrubby when young, can be trained into a small tree

Size: 8-30' tall, 10-15' wide

Wildlife Value: Provides cover for wildlife, attracts pollinators

Description: This native tree has showy white clusters of summer flowers and orange-red fall color. Great specimen tree for use along ponds, streams, ditches or other wet areas. Heat, drought, and soil compaction tolerant.
