

Arizona 'Blue Ice' Cypress

Cupressocyparis arizonica

Category: Evergreen

Growth Rate: Moderate

Adaptability: Full sun, well-drained soil

Shape: Broad conical shape

Size: 30-40' tall, 15-20' wide

Wildlife Value: Attracts songbirds

Description: Foliage is fragrant, silvery-blue year-round, while the bark is gray to brownish-black. Moderately drought tolerant once established and somewhat deer-resistant. Withstands the heat of the North Carolina summer. Great choice for screening or as a specimen tree.
